

THE VICTORIOUS "Gladiator."

A COMMITTEE of nine mechanical engineers employed by the Edward P. Allis Company, of Milwaukee, Wis., the most skillful manufacturers of engines and machinery in the world, after examining and testing thirty-six different makes of high grade Bicycles, pronounced the "Gladiator" the most scientifically constructed, easy running and highly finished bicycle in existence. Upon their judgment a large order for

GLADIATOR BICYCLES....

was placed, for the use of members and employees of that company. No test so severe and thorough as this has ever been made. Prospective buyers can be guided with safety by this decision. The "GLADIATOR" is truly a "WHEEL OF PERFECTION."

Hate American Securities.

At the instance of the agrarian leaders the German reichstag has enacted a law prohibiting speculation in options and intended to restrict speculation in stocks. The new law beyond doubt will affect seriously the sale of American securities in Germany, aside from its effect upon grain markets. The announced purpose of the agrarians in passing the law was to increase the price of grain. In the debates there were plentiful citations of the arguments so freely advanced in Congress when the anti-option bill was being pressed a few years ago. As to stock speculation the restrictions adopted threaten to exclude from the German exchanges a large class of American industrial and mining and railroad properties, and are especially severe upon new projects. In each exchange government inspectors will be stationed. No stock can be placed on the lists except by direction of a committee at least a majority of whose members are not members of the exchange. Any person who is attacked by a placing or promoting stocks may be fined 15,000 marks, and there are other severe penalties for offenses against the law.

ANOTHER RIOT AT CLEVELAND.

One Nonunion Man Gets Fifteen Cuts and Three Broken Ribs.

Further disorders occurred at the Brown Housing and Conveying Works at Cleveland. The strikers and their sympathizers attacked the non-union men while the latter were on their way to work. In numerous cases the non-unionists were beaten with clubs and felled to the ground. C. W. Jackson, one of the unfortunate men, who was attacked by a crowd of union men, received no less than fifteen knife cuts on the face and body, and had three ribs broken. For a time the police, who were greatly outnumbered by the rioters, were unable to cope with the mob. The officers on duty around the works were finally reinforced and succeeded in driving the enraged strikers back and rescuing the non-union men. Two companies of militia were ordered under arms.

ARRANGING FOR PYTHIANS.

Conference with G. A. H. Men Looking to Exchange of Counselors.
The executive committee of the forthcoming Pythian encampment at Minneapolis held a conference in St. Paul with Gen. Mason of the Grand Army executive committee and the committee on arrangements of the Grand Army encampment, looking to an interchange of courtesies during the meetings of the two great bodies in the twin cities. It is proposed that the knights shall make a trip to St. Paul Wednesday, the day of the Grand Army parade, and that in turn the old soldiers shall take an afternoon off to review the great pageant on the Minneapolis side of the bridge, which promises to be more splendid than anything previously seen in the West.

DRAINED TO DEATH.

Two Little Girls Killed and Another Hurt Near Marshall, Minn.

Two little girls were killed and another seriously injured near Marshall, Minn. A little son of Mr. Belzort was herding cattle with a pony. Two of his sisters, 4 or 5 years old, were playing about half a mile. When found the daughter of Mr. Dandurand, came down to play with the herder. During the play he tied them all three in a string with a long rope. One end of this rope was attached to the saddle of the pony. Some act of the children frightened the pony so that he ran away, dragging the little girls about half a mile. When found the daughter of Mr. Dandurand and one of Mr. Belzort's daughters were dead. The other girl will live, it is thought, though she was badly hurt. The little boy was nearly crazed by the accident.

Chicago's City Directory.

Chicago can now boast the largest and most complete city directory ever published in this country. The weight of the volume is ten pounds, and, according to its contents, Chicago's population is 1,752,000. The directory shows that about 55,000 new residents have been acquired by Chicago during the past year.

Costa Rica Adopts Gold Basis.

A special to the New York World from Colon, Colombia, says: "Costa Rica has decided to adopt gold as the basis of its currency. The inhabitants of Port Linton are preparing to celebrate the event on a grand scale. The present silver currency is to be called in."

Fatal Fire at San Francisco.

Several Chinese are believed to have been burned to death in a fire in Chinatown, San Francisco. The building, destroyed was occupied by a large number of Chinese, many of whom were dazed from the use of opium and were unable to save themselves.

Matrimonial Yoke is Galling.

Dr. Alfred C. Carpenter, late professor in the New York City Medical School, has brought suit at Perry, O. T., for divorce from his wife, Caroline, charging gross neglect, cruelty and abandonment.

Affects Diamond Match Company.

The French Government agrees to close no contracts with the Diamond Match Company for sixty days, provided the Continental Match Company agrees to send a complete outfit within that time. President Edvin Gould has agreed to send his machinery to Paris at once.

Robbed by Masked Women.

John Fisher was on a lonely road on his way home at Wilkesboro, Pa., when three masked women, who were in ambush, ran out in the road. After trying him they took his watch and pocketbook. The women then fled. Fisher says he knows his assailants.

GRAND RAILROAD FIELD.

Minnesota Speculators to Investigate the Dakota Route.

A large delegation of St. Paul and Minneapolis business men contemplate driving over the proposed railroad route from the Missouri River to the Black Hills, and investigating the resources of that region with a view to ascertaining the extent and volume of freight and passenger traffic that the proposed road would probably receive in the event that the line was constructed. Up to Feb. 1, 1890, the vast extent of territory lying between the Missouri River and the Black Hills was included in the great Sioux reservation, but on that date 11,000,000 acres of the reservation was thrown open to white settlement. Early in the '80s the Chicago, Milwaukee and St. Paul Railroad Company extended its main line to Chamberlain, S. D., it being clearly the intention of the company then to push the road from that city across the Sioux reservation to the Black Hills. But nothing has since been done, the management of the road appearing content to have Chamberlain remain as the Western terminus of the road. In the meantime two roads, the Elkhorn and Missouri Valley and the Burlington and Missouri, pushed their lines northward from Western Nebraska into the Black Hills, thereby securing control of the traffic of that region, which has now assumed gigantic proportions.

REWARDS FOR LYNCHERS.

Governor Lowndes Determined to Stop Mob Outrages in Maryland.

In the last thirty days two men have been lynched in Maryland, almost on the outskirts of the national capital. The lynchings have caused much feeling at Washington. Gov. Lowndes has offered a reward of \$1,000 for the apprehension of the lynchers of Joseph Cocking in Charles County, and an additional \$1,000 for the capture of the lynchers of the negro Randolph in Montgomery. In discussing the reward Gov. Lowndes expressed his determination to stop the outrages, and declared his intention of doing all in his power to bring the offenders to justice. He said: "If I only had the power to do so, I would remove the sheriffs of Charles and Montgomery Counties at once, for I think the crime would have been prevented had they properly performed their official duties. I cannot remove them, but their presence in office is a disgrace to the two counties."

TEACHERS DISCUSS SOCIOLOGY.

Prof. Small's Paper Causes a Breezy Debate.

Sociology was a subject before the national educational convention at Buffalo, N. Y. The paper was by Prof. Albion W. Small, of the University of Chicago, and created considerable discussion. Prof. Earl Barnes, of the Leland Stanford University, treated "The Pupil as a Social Factor," and President James H. Canfield, of the Ohio State University, Columbus, was absent on account of the death of his father-in-law, and his paper on "The Teacher as a Social Factor" could not be read. A paper on the late Norman A. Calkins, who died in New York last December, was read by Horace S. Tarbell, of Providence, and an interesting paper on "Country Roads and Country Schools" was read by Gen. Roy Stone, United States engineer for roads.

DANA BOLTS.

New York Sun Comes Out Flat-footed for McKim.

Chas. A. Dana's paper, the New York Sun, which has always styled itself, because of its faithfulness to its party interests, the most steadfast organ of the Democratic party in New York, in a triple-leaded editorial repudiated allegiance to the Democratic convention at Chicago and unequivocally bolts the platform adopted Thursday. It lashes the party for the successive steps it has taken to its present attitude and says that until election patriotism and the interests of the United States of America will rest with the candidacy of William McKinley.

WEALTHY WIDOW MARRIES.

Richest Woman in Canada Tackles Matrimony the Third Time.

John Morrow, one of the leading merchants of Montreal, and Mrs. Alexander Cameron, formerly of Windsor, were married at Toronto, Ont. This Mrs. Cameron's third matrimonial contract. She is known as the wealthiest woman in Canada, and obtained her fortune of several millions from the estate of her first husband, Elber Ward, the wealthy capitalist and vessel owner of Detroit, whose heirs are making a contest in the courts.

Laurier Accepts.

Hon. Wilfrid Laurier on Friday visited Lord Aberdeen at Ottawa, Ont., when the formal offer of the premiership of Canada was made him and accepted. The understanding is that no attack will be made by Mr. Laurier on the protective tariff left him as a legacy by his predecessors this session. One of the first steps to be taken by the new government will be in the direction of reopening negotiations with Washington looking toward a treaty of reciprocity with the United States. An effort will also be made looking toward the admission of Newfoundland into the dominion. Parliament will meet about the middle of August, and after the estimates are put through an attempt will be made to cut legislation short till the January session.

Conductor Piffers from Cars.

For some time the Ohio Southern Railroad has lost freight by theft. The company's detectives have been riding over the road in box cars several days, unknown to the train men, and as a result a well-known freight conductor was caught in the act of robbing a car. He and his engineer were dismissed from the service. It is believed that others are in the scheme and that a number of arrests will follow.

Sir Charles Tupper Is Out.

Sir Charles Tupper and his cabinet resigned and the Governor General of Canada sent for Mr. Laurier to form a government. The new ministry will likely be Blair, Fielding, Borden and Davies from the maritime provinces. From Quebec—Laurier, Tarte, Fisher and Langelier. Ontario—Cartwright, Mowatt, Patterson and Mills or Mulock.

Protest from Washington.

The greater portion of the labor of Mr. Breckinridge, Minister to Russia, during the last year, as revealed by the published foreign relations of the United States, seem to have followed an instruction from the State Department to protest against the practice of the Russian Consuls in the United States of refusing to give passports of American citizens going to Russia if they happened to be of the Jewish faith. At the point where the publication closes he was obliged to bluntly inform the Russian Government that the United States could not acquiesce in the operation of such foreign tribunals in the United States. Mr. Breckinridge's presentation of the case was formally approved by Secretary Olney. Another important subject considered was the absolute insistence of the Russian Government upon its right to punish any Russian who falls into its power after becoming a citizen of the United States or any other country. The correspondence of this subject was so spirited as to lead Minister Breckinridge to complain to Secretary Olney that Prince Lobanoff's note to him had been lacking in the operation of such foreign tribunals in the United States.

VIENNOIS WORK OF TURKS.

Outrages Perpetrated on Christian Women and Children in Crete.

Dr. Dumiller, who was sent to Crete by Emperor William to make a report on the condition of affairs, has arrived in Athens on his return from the island. He says: "Civilized people can scarcely credit the outrages which the Turks have perpetrated on Christian women and children. Europeans have but a faint idea of the horrors which have taken place. The powers must absolutely intervene to prevent a renewal of such scenes. There is but one course to pursue, that is to turn the Turks out of Europe. The insurgents intend fighting, and they are receiving a plentiful supply of arms. Great disorder prevails." Dispatches from the Cretan consuls announce that burning and pillaging have begun afresh. The Cretan committee are redoubling their efforts to supply the insurgents with munitions of war.

FAMOUS FRONTIERSMAN DEAD.

"Oklahoma" Harry Hill Succumbs to a Bullet Wound.

"Oklahoma Harry" Hill, the well-known frontiersman, whose life has been a romance interwoven with the early history of Kansas and Oklahoma, died at Wichita, Kan., from concussion of the brain. Hill was thrown from a buggy and so severely stunned that he never regained consciousness. In the early days he was a cattleman of great wealth. He was in many desperate Indian fights, and often risked his life in defense of the settlers. He was one of the leaders in the early attempts to open the Oklahoma country to settlement. Several years ago Hill organized a "Wild West" show, which made a big hit and was exhibited throughout the United States.

More Homesteaders' Excursions.

Aside from refusing to stop the payment of commissions on tickets sold in Eastern territory and agreeing to conditionally stop the issuance of exchange orders in the same territory, the only important business transacted by the Western Passenger Association during its four days' session at Chicago was to decide upon the continuance of homesteaders' excursions during the months of July, August and September. All lines will run them in Western territory on the first and third Tuesdays of each month.

Creditors Left in the Lurch.

Holla McNama, of the Mexico, Mo., firm of Elliott & McNama, cattle dealers, who failed for about \$40,000, has been acquitted. He was arrested and tried for securing money under false pretenses. The liabilities of the defunct firm are estimated at \$40,000, and the assets at practically nothing.

Incendiary Fire at Lima.

The residence of Harry Harper, Lima, Ohio, was partly destroyed by fire. Harper lost \$210 in cash. The chief of the fire department reported that the carpets, floors and walls of the house had been saturated with kerosene and the building fired.

Convicted of Offering Bribes.

At Columbus, Ohio, ex-State Senator George Eldon of Newark and John Quincy Abbott of McConnellsville were sentenced to two years each in the penitentiary. Each was found guilty of tampering with legislators, by offering bribes.

Coming to Chicago.

Rev. C. O. Brown, of San Francisco, departed for Chicago with his family, and will probably not return to the scene of his troubles. He may make Dubuque, Iowa, his old home, his headquarters in the future.

Architect Guilty of Arson.

James D. Gawn, a well-known Lorain County, Ohio, architect, was found guilty of burning a schoolhouse in Amherst. His only motive was to have work in drawing the plans for a new building.
